Election/Restrictions

Note: In the preliminary amendment submitted 07 March 2001, Applicants directed the cancellation of claims 1-16 and entry of new claims 17 and 18. However, there were 15 original claims. Therefore claims 1-15 were cancelled and the new claims were re-numbered as 16 and 17, to comply with 37 CFR 1.126.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 16, drawn to a process for isolating a promoter, classified in class 435, subclass 6, for example.
- II. Claim 17, drawn to a promoter, classified in class 536, subclass 24.1, for example.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the process of Group I can also be used to isolate the coding region and 3' regulatory sequences of a gene. Alternative processes, such gene trap or enhancer trap methods can produce the promoter of Group II. The promoter may also be produced by chemical synthesis.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
